

**News Release****KITZ CORPORATION**1-10-1 Nakase, Mihama-ku, Chiba, Japan  
First Section, Tokyo Stock Exchange (6498)**KITZ supports the TCFD and joins the TCFD Consortium**

KITZ has announced its support for the recommendations of the Task Force on Climate-Related Financial Disclosures (TCFD). Also, we are joining the TCFD Consortium, which consists of business enterprises, financial institutions, and other organizations that support the TCFD recommendations.

## Details

The KITZ Group recognizes that climate change will impact the Group's sustained growth. In December 2021, it declared its support for the TCFD recommendations under which it will make step-by-step progress on disclosure of information concerning the financial impact of climate change on its business activities. In the future, in addition to making steady progress on data-driven analysis and ascertaining the risks and opportunities associated with climate change, we will enhance the quality and quantity of disclosure in line with the TCFD recommendations.

**■ The KITZ Group's initiatives to lessen its environmental impact**

We strive to build a robust global environment and sustainable future by supporting societal infrastructure through our advancements in fluid control technologies and materials. To realize these aims, we have established a basic policy and slogan on sustainability and are striving to lessen our environmental impact. In December 2021, we established our Long-term Environmental Vision 3ZERO (Triple Zero), aiming to eliminate all CO<sub>2</sub> emissions by 2050, and we will advance activities toward achieving the goals of this vision.
